PROFESSIONAL SUMMARY

Motivated MCA graduate with 3 years of experience in software testing, specializing in Selenium WebDriver (Java), TestNG, Maven, and POM frameworks. Proven track record in improving test coverage, reducing regression cycles, and enhancing product quality in Agile/Scrum environments. Strong knowledge of SDLC/STLC, defect tracking, and cross-browser testing.

TECHNICAL SKILLS

Automation: Selenium WebDriver, Java, TestNG, JUnit, POM, Data-Driven Testing, Maven

Manual Testing: Test Case Design, Functional Testing, Regression Testing, UAT, JIRA, SDLC/STLC

Java : OOPs, Collections, Exception Handling, File Handling, Arrays, Loops

Tools & Frameworks: Apache POI, Extent Reports, Log4j, Eclipse IDE, Cross-Browser Testing

Others: Basic SQL, API Testing (Postman).

EXPERIENCE

Capgemini Technology Services India Limited (2022-2025)

- Designed and executed manual & automated test cases, ensuring maximum coverage.
- Developed and maintained Java-Selenium-TestNG scripts, reducing regression effort.
- Performed smoke, sanity & regression testing; collaborated to resolve defects quickly.
- Created and maintained precise test documentation aligned with project requirements.

EDUCATION

Master of Computer Applications (MCA) - 2021

Dayananda Sagar Institutions | CGPA: 7.64
Bangalore

Bachelor of Computer Applications (BCA) - 2018

Vijayanagara College | Percentage: 69%
Hosapete

PUC - 2015

Vijayanagara College | Percentage: 55%
Hosapete

SSLC - 2013

National school | Percentage: 62%
Hosapete

PROJECTS

AT&T

- Led integration, system testing, and validation of complex firmware and software components to ensure robust product performance.
- Partnered with cross-functional development teams to drive seamless module integration across various platforms.
- Oversaw and coordinated end-to-end firmware upgrade and downgrade activities, minimizing downtime and ensuring release quality.
- Developed and executed comprehensive sanity test cases, contributing to high product reliability and early defect identification.
- Designed and implemented Built-In Self-Test (BIST) test cases to enhance automated diagnostic coverage and system verification.

E-Commerce Automation Framework – Capstone Project

- Developed an end-to-end automation framework for an e-commerce platform, covering registration, login, product search, add-to-cart, and checkout.
- Built the framework using Selenium WebDriver (Java) with Page Object Model (POM) and Page Factory for maintainability.
- Implemented data-driven testing with Apache POI and created 25+ automated test cases in TestNG with groups and parallel execution.
- Integrated Extent Reports with screenshots for detailed reporting and improved defect traceability.
- Applied explicit/implicit waits and advanced XPath/CSS selectors for stable and reliable element handling.

TRAINING & CERTIFICATIONS

Selenium with Java Automation Testing Certification Besant Technologies, Marathahalli, Bangalore

Training Coverage: Java Programming, OOPS Concepts, Collections Framework, Selenium WebDriver, TestNG, Page Object Model, Maven, Git Version Control, Data-Driven Testing, Automation Framework Design, and Real-time Project Implementation
